PRICE ONE CENT.

NEW YORK, THURSDAY, MAY 3, 1888.

GOOD-BY HOTEL SHELBURN.

AN AUCTION SALE FOLLOWS THE DISAP-PEARANCE OF PROPRIETOR BLINN.

The Hotel's Household Goods Going Off at Low Prices-Uncle Rufus Hatch Invests in a Fly-Specked Lamp and a Bedstead for a Few Dollars-Proprietor Blinn Doca Not Return to Bid at the Sale.

Until about a week ago the Hotel Shelburn, at Fifth avenue and Thirty-sixth street, was the home of many New Yorkers of means To-day it is deserted by boarders and is invaded by an eager horde of bargainseekers, who are bidding on its elegant furniture, which is being sold under the auctioneer's hammer.

The building is a portion of the great Astor estate, and its lessees were Homer L, and Willis N. Blinn, brothers.

Homer L. Blinn, the senior partner, had been ill for a long time. He removed to his old home in the Green Mountains for the benefit of his health. During his absence the burden of business fell upon his brother. It apparently was too much for him to carry. for one morning about four weeks ago the hotel awoke to a realization of the fact that its proprietor had fled. Some of the help nearly one hundred in all.

He did not come, and the hotel was closed

ment of their wages.

He did not come, and the hotel was closed a week week ago by the trustees of the Astor estate, who proceeded to foreclose a chattel mortgage for \$21,000 and interest on the fixtures and furniture of the building. The sale, which was begun this morning, will continue until Tuesday, and is the result of that foreclosure.

Before the foreclosure, however. Deputy Sheriff McGinness made a levy upon the wine cellar and silver closet to collect a judgment of \$2,132.54 in favor of Allerton & Merritt, creditors of the missing Blinn.

This morning the hotel was thrown open to the public. The auctioneer's clerk had preceded the crowd with his box of crayons, and from cellar to garret, on every concelvable article of furniture, and in some cases on particular of the building, were chalked the "lots" from 1 to 2,209.

One man, whose curiosity concepning the contents of the building had not gone beyond the limits of the wine cellar, had evidently found an entrance last night, for he was discovered in a drunken stupor lying in a corner of the kitchen. The lock on the bibulous individual was forcibly ejected.

Among the buyers was Uncle Rufus Hatch, who was "plunging" on a very minute scale. He had evidently been shorn of his Walls reet borns, for his endeavor was to depreciate values. A much fly-specked drop-lamp fell to his lot on a two dollar put, and a black walnut bedstead was acquired for little more than a song.

Some of the prices obtained were very fair, but Counsellor Tracy, of Everts, Choate & Beaman, who represent the Astors, thought

This loss will not embarrass the Astors financially, it is needless to say.

She and the Whilom General Arraigned To-Day to Plead.

Two trifling circumstances saved Ann O'Delia from the terrible indignity of being carried in the prison van from the Tombs to the General Sessions Court this morning. One was that she was the only female prisoner to be arraigned and the other was that

she is somewhat too heavy and bulky to be crowded into the city's vehicle.

When the fat medium reached Part III. she was placed in the female pen. Her husband was boxed up with a crowd of dirty felons and separated from her by a high wooden partition.

Big Lawyer Howe, Ann O'Delia's deadly enemy, walked into court with a bran new drab overcost and delicate tinted gloves ready to give Assistant District-Attorney Bradford points for the people. After two young burglars had been hustled to the bar and back the Clerk called:

When called upon to plead to the charges of conspiracy and grand larceny she answered "not guilty" in a loud voice, with a scowl at the judge and the crowd in court.

Mr. Diss Debar let his counsel, John G. Boyd, do his pleading for him. Senator Boyd intimated that he might withdraw the plea of not guilty and demur to the indict-ments, and Judge Martine gave him ten days to make up his mind.

District-Attornev Bedford asked that high bail be fixed on the grand larceny charge, "These people have been carrying on a business which is based on fraud and trick-ery. dangerous. Miss Welbert was taken to the East Sixty Miss Welbert was taken to the East Sixty-seventh street police station, where she told Capt. Gunner that the wounded man was Milton S. Bibby, aged twenty-six years, of 210 East Seventy-sixth street, and was employed in the machine shops of the Third avenue elevated road at Ninety-eighth street.

Miss Welbert, who is only nineteen years old, was engaged to be married to Bibby for nearly a year, but lately, having heard that he had been paying attentious to another young woman, she broke off the engagement. He vainly pleaded with her for some days to change her mind, threatening to end his life if she persisted in refusing him, and this morning he called to make a final effort.

Finding her still obdurate, he drew a revolver, and, placing its muzzle at the back of his neck, was about to pull the trigger when she seized the hand which held the pistol. In the struggle to obtain possession of the weapon the hammer descended, catching the fiesh between her thumb and forefinger.

Shaking himself loose, Bibby placed the pistol against his right side and pulled the trigger, exclaiming at the same time: "I've done it now," and sank to the floor, with the blood pouring from his wound.

At the hospital Bibby made a statement, saying that he had shot himself because Mary refused to marry him. He begged the authorities to send for her so that they could be married before he died.

The bullet has not yet been probed for, as his weak state will not permit it, but it is supposed that the ball took an upward course, penetrating his lung. His recovery is deemed improbable.

Brown-Stone Rubbers and Architects.

o the Editor of The Evening World:
At a recent meeting of the Building Trades Section of the Central Labor Union a delegate of the Brown-Stone Rubbers' Association made a bitter attack on a certain class of the New York architects, who are looked on as men of honor, and whom the public generally put confidence in; but, unfortunately, he said, such confidence was and is sometimes saidy misplaced, as many could testify. The brown stone boses in order to retallate on the rubbers for going on strike two years ago, determined to do away with rubbed work. They could do so only by inducing the architects to alter the specifications of buildings then in course of erection, so as to substitute "tooled" work for rubbed work, and specify "tooled" work only for future buildings.

Though architects know only too well that rubbed work is far superior to "tooled" work, both for beauty and utility, they succumbed to the "inducements" of the bosses. These architects, he said, allowed themselves to become the instruments of the bosses' vengeance, wreaked on the heads of poor laboring men.

It is to be hoped that such architects, by tion made a bitter attack on a certain class of

rengeance, weaked on the heads of poor laboring men.

It is to be hoped that such architects, by their too ready truckling to bosses' wishes, would not compel organized labor in self-defense to severely let alone any buildings or works they may have anything to do with.

The popular subscription idea was also applauded.

Mr. Roswell P. Flower was seen at 62 Broadway. He said: "If the idea can be carried out I certainly consider it a most worthy one. Rich men every now and then establish schools in this city in which the children of the poor may be educated free. Such actions bridge over the gulf supposed to exist between the rich and poor and make their relations pleasanter. There cannot be too much done in the way of educating the poor, and as the idea suggested would give a liberal education free, of course I favor it."

President J. Edward Simmons, of the Board of Education, was found in his office in the First National Bank. While he did not care to express a definite opinion until he had thought the project over, he said: "A great deal is being done to educate the people of this city at the present time. Henry Bergh's nephew and successor as President of the S. P. C. A., whose name is also Henry Bergh, said: "I most heartily favor the erection of such a building by popular subscription. It is an excellent project. We cannot do too much to educate working men and women, and the idea proposed of giving them free lectures on instructive themes is a worthy one. By the way, I would like to suggest as the subject of one of the lectures the proper treatment of animals."

Supt. Jasper, of the public schools, also expressed approval of the project.

"I am emphatically in favor of the project," he said. "I think it a very sound one. To be sure a great deal is being done every day to educate the masses, but such an idea as is proposed would do much to advance thought among them and enlighten them. I wish the plan every success."

Henry Clews, the banker, said: "It is a grand idea to advocate the erection of a temple of such a character. It should be an edifice which will add beauty to the city, and I am sure it would be of great public benefit. We need it to make our city keep on a level with cities of the Old World.

"I think the plan to start the erection of such a building by subscriptions and bequests is an admirable one. Many people, having accumulated great wealth by thrift, are puzzled, when they make their wills, to find a suitable way to dispose of a part of their wealth in charities and for the public good. Such people would find an excellent opportunity to contribute to such a fund as is proposed. Whatever contributes to the education of the masses is elevating to man-

New York has money enough to do anything, and if this idea of ownership in the masses will induce people to attend these lectures, then let us by all means have the building. It would be a big undertaking, but they don't stop for that in The Would office. I wish The Evenino World every success in the matter."

R. T. Auchmuty, who has been prominent in the cause of education in this city, said: "A building like the Chicago Auditorium would be a great benefit here in New York. New York wants such a building badly. There is such an enormous population here which has not the advantage of good lectures and music, that, if a place of the kind could be prepared, it would be a grand, good thing."

be a noble, worthy undertaking, and The World is the paper to do it. In fact, it is the only paper that could do it. We need more buildings of that character in New York. This city is growing rapidly, and we have not enough such edifices."

David J. Seligman, the banker, of No. 21 Broad street, said: "We are in great need of such a building, even two or three of them, and I am glad THE EVENING WORLD thinks of advocating it. It should be brought before the public, agitated and then subscriptions should be raised. We have only one building in the city similar, and that is not enough."

in the Court of Oyer and Terminer to-day. Just lefore the opening of Court Lawyer John H. Bird, who was so smiling yesterday while his associates in Kerr's defense scored point after point against the District-Attorney, entered. The leatific smile was gone and auterity frowned from his round face.

To an EVENING WORLD reporter he explained his seeming discontent. It was caused by The World's repeated statement that Thomas B. Kerr could and ought to be convicted and punished.

"Why does The World do so?" he inquired. "No other paper does it. If it was not for The World there would be no trouble." while his associates in Kerr's defense scored

A long line of men were rejected because of confessed bias, the defense not questioning confessed bias, the defense not questioning them at all.

Then came Daniel Tooker, a plumber at 1591 Third avenue. After a short examination, in which he said he knew Duffy but had formed no opinion whatever regarding the case, Col. Fellows asked; that he be excused under the statute for lack of capacity and character.

Bourke Cockran popped to his feet and insisted that Mr. Tooker should not be dis-

sisted that Mr. Tooker should not be dismissed.

"The people seek to reject any man who
displays an unbiased mind," he shouted.
"We don't want a packed jury. This man
says he has no bias. He has answered every
question and we are satisfied with him. True,
he is a poor workingman, but that is not
against him."

Col. Fellows arose irate and interrupted
Mr. Cockran. He denied that he had sought
to exclude Mr. Tooker as a workingman. The
Court stopped him and excused Mr. Tooker

The juror shook his head.

"You can go!" thundered the counsellor, and the man, who had intended to be facetious, slid out of court, followed by applause and laughter.

After an hour William A. Wilson, a hardware dealer at 350 East Fifteenth street, was examined. He survived the cross-fire of questions from the lawyers and took the third seat in the jury-box, although he was not quite satisfactory to Mr. Cockran.

In the examination of Secretary George R. Witte, of the Second Avenue German Branch of the Young Men's Christian Association, Mr. Witte having said he read The World, Mr. Cockran asked: "Did you read the particularly infamous article in that paper

Mr. Witte said he had read no infamous article in The World, and after an hours labor with him Mr. Cockran submitted his challenge. The challenge was overruled and he was given the fourth seat, after which a

She assumed the name of Stokes after she came to New York, and would never tell any one her real name, although she said that she came ef a highly respectable family in Boston, and had a brother there in business.

Her appetitite for drink, which she indulged to excess, finally began to overcome her, and during the past three or four years her decline has been rapid.

At the address she gave, it was said that she had not lived there for over a year. It was learned, however, that since her last discharge from the workhouse she had entered the home of the New York Magdalen Benevolent Society, in East Eighty-eighth street, in an attempt to reform. She left there about six weeks ago and has since been a vagrant on the streets. on the streets
